## Brindle Distillery and Cuckoo Gin.

Brindle Distillery, seeking a modern upgrade for their E-Commerce website, partnered with our team to address challenges with their previous site. Customers had found the old website difficult to navigate, leading to a less-than-optimal shopping experience.

Collaborating closely with Mark from Brindle Distillery, we focused on the website's structure for improved navigation and user experience. Our redesign introduced a more intuitive layout, ensuring that visitors could easily find what they were looking for.

Is your website losing you business? If so, why not speak to a member of our team and see how TLH Marketing can help your business.

The screenshot shows a professional website for Jones Harris. At the top, there's a dark header bar with a search icon and a phone number: "Find an ideal partner in Jones Harris, Call Now 01253 874 255". Below the header, the main navigation menu includes "Home", "About Us", "Our Services", "Careers", "News & Advice", and "Contact Us". A large teal "JH" logo is positioned above a central image of a lighthouse against a blue sky. To the left of the lighthouse, a dark sidebar features the text "Bespoke Tax & Accounting Solutions" and a quote about being strategic partners in growth. A "Contact Us" button is located in this sidebar. The main content area below the image discusses "Dedicated Partners in Business" and highlights their tailored service approach. At the bottom, a section titled "Services Tailored for You" is partially visible.

## Jones Harris New Website.

Jones Harris stands out from other companies because they offer not just your standard accounting services, but their personal expertise and distinctive approach.

Together we created a website that not only complements their brand but also highlights their most valuable asset: themselves. With call to actions throughout the website, we focused heavily on creating a high performing lead generating website.

The screenshot shows a mobile-responsive website for Barton Grange Marina. At the top left is the Marina's logo, which includes a stylized green wave graphic and the text "Barton Grange MARINA". The main content area features a large, scenic photograph of several narrowboats docked along a canal at sunset, with warm sunlight reflecting off the water. Overlaid on this image is a white callout box containing the text "Step Aboard at Barton Grange Marina" and a descriptive paragraph about the marina's location and facilities. Below this are two buttons: "About The Marina" (in a teal box) and "Enquire Now" (in a dark grey box). To the left of the main content is a vertical sidebar with a light grey background. It contains a "Home" button, a "About The Marina" link, a "The Marina Facilities" section, and a "Explore" section with links to "The Local Area", "Mooring Fees", and "Our Details". At the bottom of the sidebar is another "Enquire Now" button. In the bottom right corner of the main content area, there is a small teal box with the text "Barton Grange MARINA".

## Barton Grange Marina.

The family-run Barton Grange Marina, situated on the beautiful Lancaster Canal, offers first-class customer service and facilities. However, the Marina did not have any web presence of its own... until we stepped in, that is!

With Barton Grange, we built a fully responsive website that details the Marina's amenities and also features all of the extensive facilities offered by the nearby garden centre and entertainment centre.

Does your business lack an online presence? Do you not know where to begin? Let's talk and start your online journey today.

The screenshot displays two views of the Pramac website. The top view shows a product detail page for a 'GS Hand Pallet Truck'. It features a large image of the truck in a warehouse setting, a callout box with the product name and a brief description, and a 'Buy Now' button. The bottom view shows a search results page for generators. The page includes a sidebar with filters for 'Voltage', 'Series', and 'Fuel Type', and a main area showing a grid of generator models with their names, prices, and some technical specifications.

## Pramac Lifter and Pramac Generator.

Pramac wanted E-Commerce website's capable of selling all its products online including it's material handling equipment, generators and pumps. These sites needed to be easy to manage, fully responsive and appeal to the UK audience. The site's have been built in such a way that Pramac can manage products and orders by themselves.

Since then, we have provided a full support and maintenance package to help keep the site up-to-date and in tip-top working condition!

The portal features a modern design with a dark header and sidebar. The sidebar includes links for Dashboard, File Manager, Employee Info, Accounts, Surveys, Maintenance Contracts, Rental Equipment, Through Examinations, Service Contracts, Email Marketing, Holidays, Applications, Rent Management, OOO Submissions, Admin Options, User Management, Admin Settings, and Backend Settings. The main content area includes a welcome message, survey feedback charts, account users, and a survey tool.

## Cooper Handling Bespoke Portal.

The project's primary objective was to help give visibility to the Cooper team. The portal gives complete visibility of all maintenance contracts, service agreements, rental equipment, as well as other critical aspects of the business.

The portal has increased efficiency across the board and in turn has reduced unrequired maintenance on machinery saving the company a substantial amount of wasted resources and time.

Do you lack visibility in your business? Could having visibility save your business time and money? Let's talk. We could build a bespoke application that gives you and your employees complete visibility.

The screenshot displays a custom-built website interface for a fuel card provider. On the left, a sidebar offers filtering options like 'Network' (Esso, Keyfuels, UK Fuels) and 'Store Filters' (24 Hours, Ad Blue, Gas/Oil, HGV Access, Motorway, Supermarket). It also includes a 'Search by Radius' section with a search bar for '18 Roundhouse Ct, Preston PR5 6DA, UK', a 'Get My Position' button, and a 'Search Radius' button. Below that is a 'Search Along Route' section with a 'From' field. The main area features a map of the North West of England, centered around Preston. A large blue circle indicates a search radius of 5 miles from the specified address. Numerous black location pins mark fuel stations across the region, including sites in Lancaster, Morecambe, and surrounding towns like Blackpool, Fleetwood, and Lytham. The map also shows major roads like the M6 and M55, and local landmarks such as Ribbleton Railway & Museum and RSPB Hesketh Out Marsh. A legend at the top right of the map area provides options for 'Satellite' or 'Map' view.

## Greenarc Site Locator.

Greenarc Fuel Cards requested their website included a way their customers can find all locations they can get fuel from. We custom-built a bespoke Site Locator tool which allows users to easily find stores in many ways, including the ability to radius search, search for locations on a point A to B journey and apply filters to narrow down search results.

COLLECTIVE INTELLIGENCE GROUP

**Company Announcement**

Hi First name,

I hope you, your family and colleagues are all well through these challenging times?

During the Covid-19 lockdown we at Collective Intelligence in the overseas offices have been supporting the many end users of our management telemetry systems as they have continued to work in chain. Alongside this we've also been hard at working developing which I would like to share with you through this email.

Over the last 12 months we've been listening to what the dealers in the UK have been saying to us about what they need within their five key things have been identified;

1. An affordable and simple fleet management product
2. Support
3. Complementary safety products
4. Battery management
5. Data security

We now have solutions to all of these:

1. An affordable and simple fleet management product, Forklift IQ360 answers this need as with Forklift IQ360 the customer can manage his forklift trucks to ensure they have the correct certificates, complete the daily pre-shift checks which are all stored on the system (no paper), get basic management reports and have records. All of this with no contract and no upfront costs. For customers

- Post 1:** A top-down photograph of a forklift truck with a pallet of boxes. The text reads: "Are your forklifts safe to operate? Real-time updates on your forklift trucks and operators with the Fleet iQ360 system. Safety first." It includes a small icon of a forklift and a "Safety first." callout.
- Post 2:** A top-down photograph of two workers in high-visibility vests. The text reads: "Are all your forklifts operating at peak efficiency? Keep track of important activities and events, for the purpose of improving operating efficiency whilst maintaining high levels of safety with Forklift iQ360." It includes a small bar chart icon.
- Post 3:** A top-down photograph of a forklift truck. The text reads: "Do you know who is driving your forklift trucks and where they are? Monitor your entire fleet and see who's using your forklift trucks and where they are with Forklift iQ360." It includes a small icon of a forklift.
- Post 4:** A top-down photograph of a forklift truck. The text reads: "Are you concerned about the cost and operational efficiency of your forklift fleet? Monitor work hours and allow supervisors to detect safety violations and performance inefficiencies using Forklift iQ360." It includes a small icon of coins.

## The Flower Bowl Email Confirmations.

Previously The Flower Bowl Entertainment Centre used plain text emails when sending confirmation emails to customers. These emails lacked imagination and missed the opportunity to upsell to customers.

Working with The Flower Bowl, we created a suite of booking confirmation emails that not only suited their brand better but upsold more activities to customers.

Built in an easy to manage way, this allows for amendments in future should there be any special seasonal events.

Forklift IQ360 serves as the eyes and ears of forklift operations managers, enabling them to monitor and keep track of important activities and events, for the purpose of maintaining high levels of safety, productivity and profitability.

The implementation of Collective Intelligence was prompted by the General Manager requesting greater accountability and visibility into our licensing and operational control. The Operations Team helped vet and implement an effective program through partnership with Collective Intelligence.

The support Collective Intelligence has provided during Anchor Global's time as a customer has been of the highest of standards. Collective Intelligence's response has been on the same day and the team at Anchor Global have expressed their appreciation in how quick we are to respond.

"The main selling point for me, was the pre-operation checks; the individual user accounts and pins. This control over our equipment was what I was looking for. Forklift IQ360 had all of the features we needed to manage our materials handling fleet. The program was affordable, effective and it was on site in roughly 2 weeks."

Anchor Global Fulfillment, General Manager

At Anchor Global Fulfillment, we operate a mixed fleet of Materials Handling Equipment along with other industrial equipment. Another huge selling point of the Forklift IQ360 system was the fact that it seamlessly integrates with our mixed fleet, unlike other telematics software. Our fleet is made up of the following:

- 5 x Order Pickers
- 2 x Stand Up Forklifts
- 1 x Bendi Lift
- 1 x Adhi Scissor Lift

## Jones Harris Company Video.

Jones Harris's most compelling selling point is the team itself—**their expertise, unique approach, and dedication.** Understanding this, we set out to create a company video that showcases exactly these qualities.

The video helped capture an intimate look at the firm, illustrating not just the services offered, but the people behind those services who make all the difference.

## EventfulDay Video.

For Eventful Day, we created a crisp and engaging company video to sell their service to people who hadn't heard of them. At the time, Eventful Day was a new business and needed to spread the word about what they did. This video gave the perfect overview and generated interest and potential custom.

## COLLECTIVE INTELLIGENCE GROUP

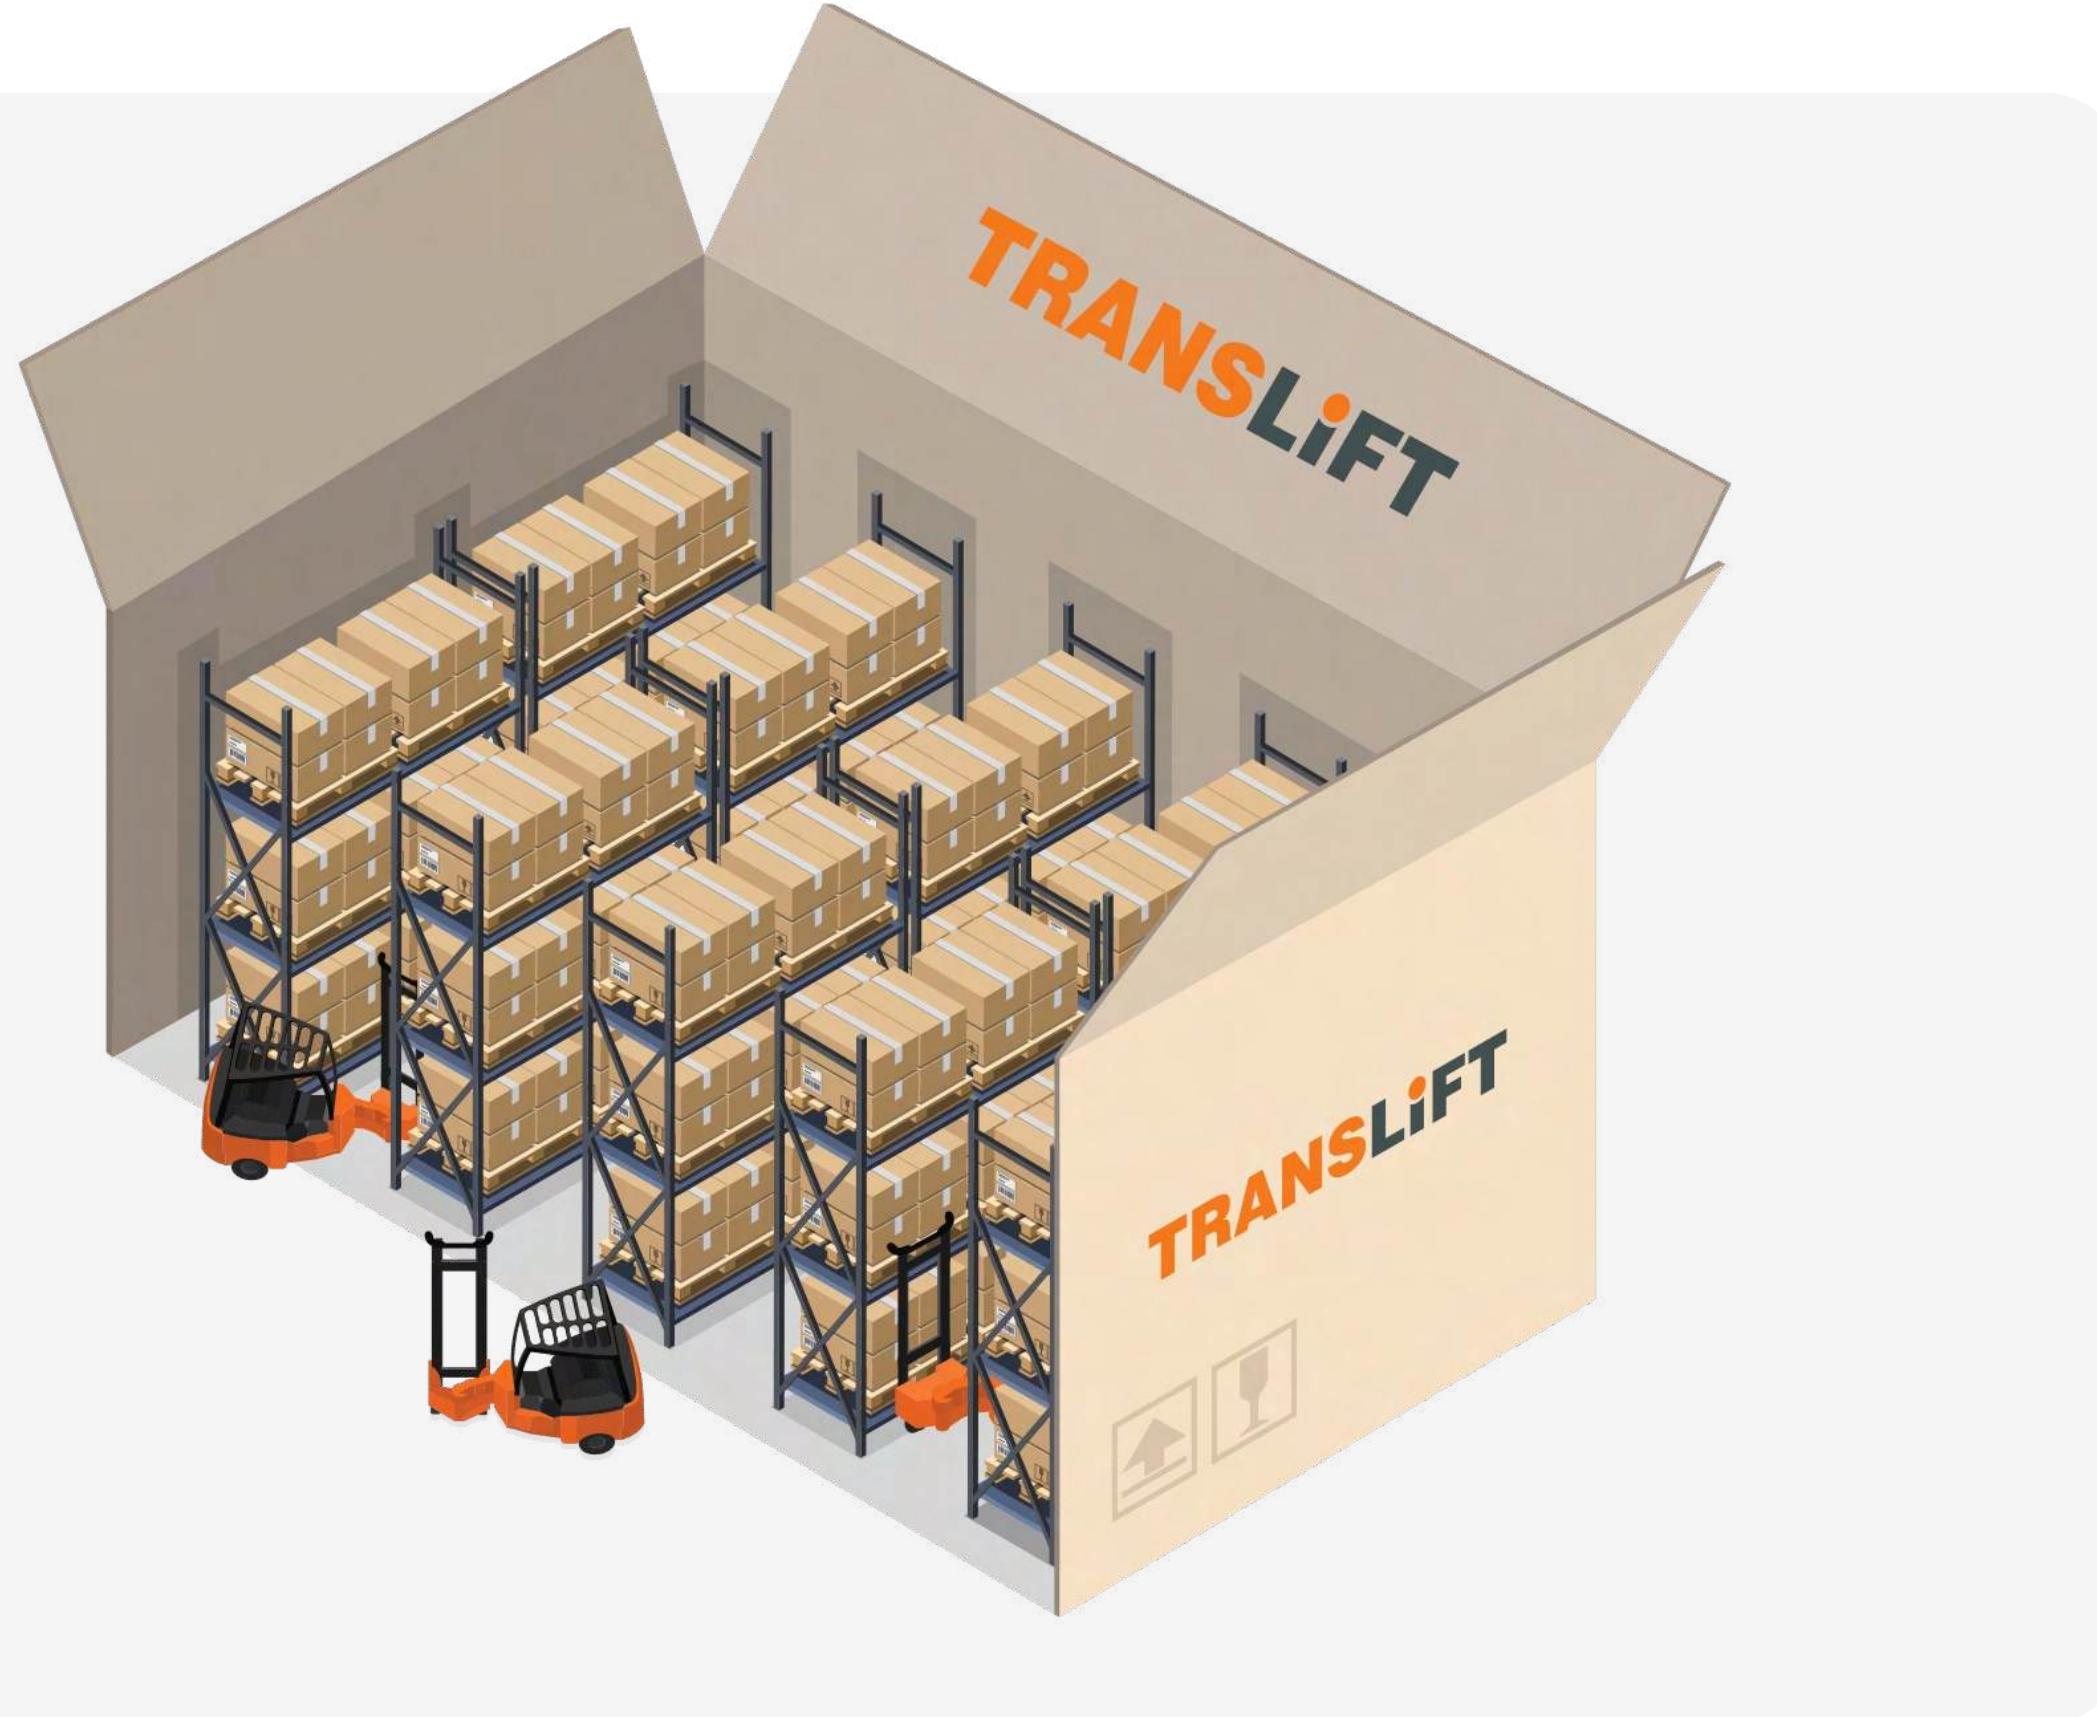

# Collective Intelligence Infographics.

We can design and create infographics for your business.

For The Collective Intelligence Group, we created a branded infographic that was shared around their wider team. It contained information about how their employees could help improve their social media marketing and increase engagement with their potential customers and prospects.
